China Britain Medical and Dental Academy

One of the world's top centres of excellence

CBMDA was founded with simple premises:

- To provide advanced clinical and scientific knowledge to doctors and dentists from China and the UK.
- To make overseas exchange programmes in the UK accessible, efficient, effective for Chinese professionals.
- To provide a networking platform for medical and dental professionals from both China and the UK.

Renowned international reputation

Ever since its early founding date, China Britain Medical and Dental Academy has been providing doctors and dentists from both China and the UK with a rich and diverse learning environment. Our unparalleled teaching methods help to launch students into the successful future they have always dreamed of. China Britain Medical and Dental Academy with its head office located in central London and its students participating in different programmes across the UK is in its fast pace to become the leading provider of Continuing Professional Development (CPD) courses and MasterClass.

Patient Care

The CBMDA the Academy was founded by a group of passionate medical and dental professionals, subject leaders from both UK and China, they are now devoting their energy and passion into passing on the most advanced scientific and clinical knowledge and skills, to ultimately benefit our patients all around the world. Learning sophisticated clinical care and research methodology lie at the heart of all our postgraduate programmes.

China Britain Medical and Dental Association

Our Mission

China Britain Medical and Dental Association (CBMDA.org) is a non-for-profit organisation. The association provides a free networking platform for doctors and dentists from both China and the UK. We offer free content such as videos and articles of the latest medical and dental research and development. We give introduction courses of the latest devices, treatment techniques covering all medical and dental subjects.

CBMDA the association also offers membership only content and provides a wide range of services/benefits to its individual and corporate members.

Industry Activities

CBMDA the Association is actively supporting and bringing together the Chinese and UK's life sciences companies, corporate partners and investors. Our 1000-plus Member companies are located across the globe, benefiting from our networking, partnering, purchasing, training, advising and advocacy activities.

Association Funding for CPD Courses

There are a number of sources of funding available for CBMDA students. These include a significant package of competitive CBMDA bursaries and scholarships in a range of subject areas. Please send your enquiries to enquiries@cbmda.org

CBMDA Academy Facilities - Dental

Our Facilities

World Class Centre for CPD Medical & Dental Continuing Education Courses.

Whether your time with us is as course participant or course lecturer, you will have the prestigious Harley Street, The Royal Society of Medicine, King's College London Dental Institute and the Royal College of Surgeons of England training facilities to choose from. You will also find University College London (UCL) Eastman Dental Institute CPD facilities to be amongst the best in the world.

The Institute is based on Gray's Inn Road in the Bloomsbury district of London, United Kingdom, adjacent to the Eastman Dental Hospital, with which it is closely associated. The Institute is the largest postgraduate dental centre in Europe, and together with the Eastman Dental Hospital forms one of the largest concentrations of oral health care specialists and research in Europe. As well as providing an ideal clinical skills training facility for UCL Eastman Dental Institute postgraduate students, Eastman dental facilities are available for CBMDA delegates from China for CPD dental lectures and hands-on training.

As a dedicated Dental Continuing Education Courses facility, UCL Eastman's highly sophisticated equipment and congenial ambience offer a high-specification and comfortable environment to learn in.

OVERVIEW

STRUCTURE

ADMISSION

LEARNING

FEES

OVERVIEW

MasterClass in Aesthetic Dentistry is an innovative programme that will give you the skills and knowledge to provide high-quality service to your patients. Our programme advisors, clinical teachers are all experts in their field. You will have the opportunity to gain knowledge from each of them. We like to think our training courses make it fun to learn, whilst gaining the maximum amount of practical 'hands on' training with live models. Each course will include consideration of patient risk assessment of future disease and guidance on clinical prevention.

Key Benefits

- Centre of excellence for teaching and research in dentistry.
- Sound academic theory and high quality practical training.
- Intensive face-to-face residential blocks to learn and practice contemporary clinical techniques at worldclass training facilities.
- Course material delivered by a team of highly experienced clinical tutors and academics, many of whom are world-leaders in their field.

TERM ONE

Aesthetic Design and Porcelain Restoration
Beijing, China

PROGRAMME STRUCTURE

DAY 1

- Classification and aetiology analysis of aesthetic defects.
- Fundamental of contemporary aesthetic dentistry.
- Lunch
- Photography in aesthetic dentistry—camera systems and technique

- Basic principle of aesthetic design Standard design procedure for aesthetics
- Clinical application of wax-up and mock up
- Lunch
- Hands-on: aesthetic design procedure
- Wax-up and mock up

DAY 2

DAY 3

- Classification of all ceramic materials.
- Indications and contraindications of all ceramic materials
- Lunch
- Occlusal design in all-ceramic restorations
- Bonding system selection, bonding technique in all-ceramic restoration.

- All-ceramic crown tooth preparation and bur selection
- Margin design and impression techniques.
- Lunch
- Temporary restoration design, procedure, technique
- Hands-on: Upper incisor crown preparation and impression.

DAY 4

DAY 5

- Shade selection theory, clinical shade selection tools and techniques
- Customised colour capture, transfer and reconstruct.
- Lunch
- Live demonstration, upper anterior tooth preparation
- Discussion and Q&A

TERM TWO

Minimally invasive and Aesthetic Bonded Restorations
Beijing, China

PROGRAMME STRUCTURE

DAY 1

- Minimally invasive aesthetic dentistry-- concepts and principles
- Minimally invasive aesthetic dentistry-- materials and clinical applications
- Lunch
- Minimally invasive aesthetic dentistry --Indication clinical techniques
- Adhesive dentistry-- Indication clinical techniques

DAY 2

- Classification of porcelain veneers and preparation techniques.
- Porcelain veneer designs and material selection for different types of tooth defect
- Lunch
- Hands-on: preparation for window type porcelain veneer

DAY 3

- Design principle and indications for Ultra-thin porcelain veneers
- Material and clinical applications for Ultra-thin porcelain veneers
- Lunch
- Gingival retraction technique and impression making.
- Clinical demonstration: Upper incisor veneer preparation and impression

DAY 4

- Shade selection technique in minimally invasive aesthetic dentistry
- Choose the right environment Capture of customised colour
- Lunch
- Digital photography application in shade selection for porcelain veneers.
- Communication with technicians: how to accurately pass on customised design and colour.

DAY 5

- Try-on and occlusal adjustment of veneers.
- Feature and benefit of different bonding systems
- Lunch
- Step-by-step-- Porcelain veneer bonding
- Clinical demonstration: Upper incisor veneer try on and bonding.

TERM THREE

Aesthetic Restoration of Dental Implant and Soft Tissue Management Beijing, China

PROGRAMME STRUCTURE

DAY 1

- Design of implant restoration in anterior aesthetic zone
- Basic techniques and material selections of implant restoration in anterior aesthetic zone
- Lunch
- Principle and techniques of implant restoration in anterior aesthetic zone
- Material selections of implant restoration in anterior aesthetic zone

- Aesthetic risk assessment and responses in implant dentistry
- Minimally invasive tooth extraction techniques in aesthetic zone
- Lunch
- Timing for performing implant in aesthetic zone.
- Group discussion

DAY 2

DAY 3

- Indications for immediate implant and its clinical techniques.
- Clinical application of immediate implant and restoration.
- Lunch
- Bone augmentation technology in anterior aesthetic zone
- Group discussion

- Impression technique in anterior aesthetic zone.
- Shaping the gingival contour in anterior aesthetic zone.
- Lunch
- Customised tray and gingival collar (emergency profile) transformation.
- Hands-on: Custom-made tray Custom-made transfer coping

DAY 4

DAY 5

- Application of custom abutment in anterior aesthetic zone
- Implant supported crown try-on, occlusal adjustment and bonding in anterior aesthetic zone
- Lunch
- Clinical demonstration: impression making in anterior aesthetic zone (custom-made tray+custom-made transfer coping)

TERM FOUR

Digital Aesthetic Dentistry
Multidisciplinary Treatment
of Aesthetic and Functional
Reconstruction
London, United Kingdom

PROGRAMME STRUCTURE

DAY 1

- Welcome to London
- Present and future of digital aesthetic dentistry
- Lunch
- Digital diagnosis and design in aesthetic dentistry
- Evening reception

- CAD/CAM technology in implant dentistry
- Clinical application of digital impression
- Lunch
- DSD – digital aesthetic design and patient communication skills

DAY 2

DAY 3

- Chairside CAD/CAM dental restoration system development and application
- Aesthetic case study of chairside CAD/CAM dental restoration system
- Lunch
- Hand-on: Chairside digital impression making for standard model

- Chairside CAD/CAM aesthetic dentistry--material selection
- Chairside CAD/CAM aesthetic dentistry--try-on and bonding technique
- Lunch
- Demonstration: chaireside CAD/CAM porcelain veneer (tooth preparation, Impression, Veneer design)

DAY 4

DAY 5

- Etiology of severe anterior tooth attrition
- Aesthetic design in severe anterior attrition cases
- Lunch
- Multidisciplinary treatment of aesthetic and functional reconstruction for complex case
- Evening Graduation Ceremony, Certificate Ceremony.

Certificate Awarding Ceremony

The Royal Society of Medicine

The ROYAL SOCIETY of MEDICINE

The Society was established in 1805 as Medical and Chirurgical Society of London, meeting in two rooms in barristers' chambers at Gray's Inn and then moving to Lincoln's Inn Fields where it stayed for 25 years. In 1834 the Society moved to Berners Street and was granted a Royal Charter by King William IV.

In 1889 under the leadership of Sir John MacAlister, a Building Committee chaired by Timothy Holmes supervised the move of the quarters of the Society from Berners Street to 20 Hanover Square. In 1905 an eleven-member committee headed by Sir Richard Douglas Powell organised the celebration of the Society's centenary. Two years later the Royal Medical and Chirurgical Society of London came together with seventeen specialist medical societies and, with a supplementary Royal Charter granted by Edward VII, became the Royal Society of Medicine. In 1910 the Society acquired the site on the corner of Wimpole Street and Henrietta Place, which was opened by King George V and Queen Mary in May 1912.

The Royal Society of Medicine (RSM) is one of the major providers of accredited postgraduate medical education in the United Kingdom. Each year, the RSM organises over 400 academic and public events, spanning 56 areas of special interest providing a multi-disciplinary forum for discussion and debate. The RSM is home to one of the largest medical libraries in Europe, with an extensive collection of books, journals, electronic journals and online medical databases. As well as providing medical education, the Society aims to promote an exchange of information and ideas on the science, practice and organisation of medicine, both within the health professions and with responsible and informed public opinion.
